PROFESSIONAL EXPERIENCE

INFOSYS PVT LTD, *Chennai, India*

SENIOR SOFTWARE ENGINEER (January 2019 – July 2019)

Trained several new joiners to onboard them quickly into the project with functional and technical KT. Reduced 20% manpower by providing a tool for the operations team to manage error logging and finding the root cause for production issues.

- Direct interaction with clients on requirements and new enhancements.
- Owning specific modules from development to production and taking care of Defects if any.
- Following agile methodology and handling team members and assigning tasks and tracking till closure using JIRA.

VERIZON DATA SERVICES INDIA PVT LTD, *Chennai, India*

SOFTWARE ENGINEER (February 2017 – December 2018)

Awarded for my consistent performance in two quarters and innovation which helped the team handle post-production data monitoring and sending frequent updates through email to respective stakeholders.

- Providing support to clients and testers for both technical and functional testing.
- Taking Ownership in enhancements from technical architecture perspective starting from HLD to LLD and documenting all the changes for future references.
- Hand-selected by the senior manager to serve as mentor buddy for newbies and tasked with providing customized training opportunities for them.

HEXAWARE TECHNOLOGIES PVT LTD, *Chennai, India*

ASSOCIATE SOFTWARE ENGINEER (November 2014 – January 2017)

Conducted intake interviews and administered screening to ascertain client eligibility for projects. Received accolades from clients for providing customer value addition which helped my team build webservices without boilerplate code which led my manager to fast track me to projects alongside several senior compatriots.

- Assisting on migration from manual to automation testing for testers.
- Providing proof of concept to clients to upgrade tech-stack seamlessly to latest technologies.
- Working very closely with onshore counterparts on new requirements and communicating regular updates until closure.
